

COVID Protocols for Auditions and Rehearsals

All participants will be required to follow the policy outlined below:

1. All participants must be masked before entering the rehearsal space and must remain masked (over nose and mouth) until they have left the building.
2. All participants will have their temperatures taken before entering the rehearsal space. Temperature must be below 100.4°F to be cleared.
3. Participants should 'gel in' and 'gel out.' Hand sanitizer will be available at the entrance to the rehearsal space for use at the beginning and the end of the rehearsal.
4. No food or drink will be permitted.
5. Props and furniture surfaces will be sanitized at the beginning and end of every rehearsal.
6. We discourage parents and guardians from attending rehearsal to make social distancing easier.
7. Social distancing will be maintained.
8. Scripts may not be shared. Each participant must write his or her name in the script and keep track of it.
9. Bathroom visits will be staggered, to maintain social distancing.
10. Rehearsal dismissal will be staggered (by alphabet), to avoid overcrowding in hallways, stairwells, and elevators.
11. If you feel sick, are coughing, or have a temperature or a runny nose, do not come to rehearsal.
12. In the event that someone does contract COVID, the production will immediately be halted. The Board of Sumter Players will be informed and they will decide whether or not the production can continue.
13. All policies are subject to change if CDC guidelines require it.

I agree to abide by the policies set out above. I understand that my participation depends on my willingness to follow this protocol.
